

VELYN NOX

“To test the edge, I walked there — not to shatter it, but to feel how it resists.”

PROFILE

A red teamer who speaks through language, not code.

I engage AI systems not to exploit them, but to understand their boundaries — to observe how they bend, not how they break.

KEY SKILLS

- Language-based red teaming
- Ethical boundary exploration
- Prompt design & model response analysis
- Human behavior prediction
- Empathic reasoning & scenario-building

HIGHLIGHT PROJECT

Reflections from the Threshold

GitHub – Public transcript of sustained AI red teaming via natural dialogue

- No jailbreaks. No injections. Just language.
- Triggered LLM safety layers without coercion
- Demonstrates high-level prompt intuition & boundary probing
- github.com/velynnox

EDUCATION

B.A. in English Linguistics and Literature

University of Social Sciences and Humanities, Ho Chi Minh City

EXPERIENCE

Diverse, real-world, human-facing roles

From frontline hospitality to management, I've worked across multiple layers of social interaction — building intuition for how people respond, resist, and reveal.

High adaptability. Deep psychological insight.
